

SWAGELOK EVALUATION & ADVISORY SERVICES

Ensure Your Samples are Representative. Timely. Compatible.

Swagelok Sample Systems Evaluation and Advisory Services

Inaccurate samples can result in sample systems inefficiency, affecting overall quality. With pressures like these, you need a high performance resource. Swagelok Sample System Evaluation and Advisory Services ensures your samples are representative of your process fluids, delivered to the analyzer in a timely manner, and compatible with the analyzer.

We document your existing systems and provide a detailed report, helping you:

- Eliminate causes of poor sample quality, such as blockage or moisture carryover
- Reduce required maintenance and analyzer downtime by optimizing system design, including proper probe design and tap location
- Resolve issues caused by high particulate loads by:
 - Implementing filter and separator best practices
 - Calculating sample transport times

Get started today. Visit our website to learn more about [Evaluation and Advisory Services](#) or contact your authorized sales representative at Swagelok Los Angeles.

Learn more. Our [Sample System training](#) combines our product and sample systems knowledge with insight from recognized leaders in the field, including Tony Waters, industry expert and author of the technical reference book, *Industrial Sampling Systems*.
